SQUEAKY CLEAN LIQUID

Detergent Concentrate

DIRECTIONS:

Cyndan* Squeaky Clean Liquid is a highly concentrated product that can be diluted with 400 parts of water to 1 part Squeaky Clean.

This equates to a highly economic result as it requires only very small amounts of concentrate per wash (i.e. 25mls to 10 litres of water).

Cyndan* Squeaky Clean Liquid is also recommended for cleaning laboratory and scientific glassware as it rinses streak free.

Rinse product contacting surfaces with potable water after use.

SAFETY: Avoid contact with eyes.

FIRST AID: If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
