

# BIRD BAN GEL

- ✓ Repels birds
- ✓ Weather resistant
- ✓ Easy to apply
- ✓ Non Toxic
- ✓ Safe for birds

## SURFACE TREATMENT TO ELIMINATE BIRD ROOSTING AND NESTING

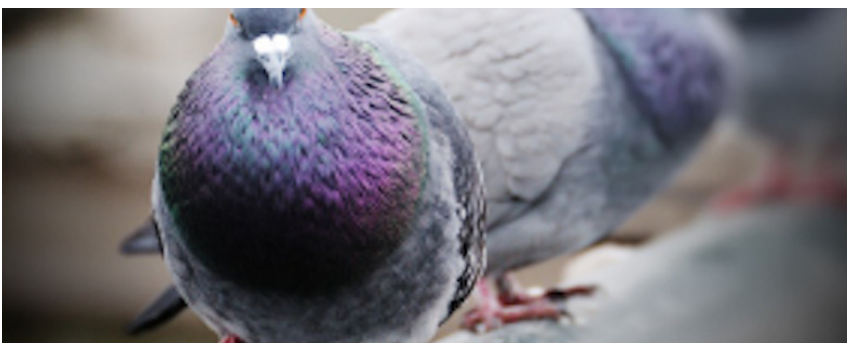

Cyndan Bird Ban Gel is a non acidic, non toxic gel coating which dries clear and is almost undetectable to the naked eye. It repels birds such as pigeons, starlings and sparrows.

Cyndan Bird Ban does not harm birds rather, it's tacky formulation makes birds feel uncomfortable and insecure and stops them from roosting and nesting, thus preventing their highly acidic droppings from damaging and contaminating property.

It is long lasting and is weather resistant. Use in areas where birds are a menace and health hazard, such as; outdoor cafes, food courts, building facades & ledges, factory & storage facility roof beams, sills and anywhere birds are a problem.

Bird Ban is easy to apply with a brush or roller and lasts for months.

**Recommended Use:** small window sills and ledges, and other flat areas where applying with one scrape of a trowel is the most efficient means of application. For larger areas we recommend the use of Bird Ban Liquid.

## COVERAGE:

2-3m<sup>2</sup> per litre

## USE ON:

- Flat surfaces
- Ledges
- Small window sills
