

**CAUTION** Keep out of reach of children  
Read safety directions before using

Shake vigorously for one minute in a vertical movement before spraying and occasionally while in use. CYNDAN INSTANT COLD GALVANISING protects iron and steel against rust corrosion by creating a specialised galvanic barrier in the same manner as hot dip galvanising. CYNDAN INSTANT COLD GALVANISING weathers to the same colour as normal galvanising. It is ideal for steel roofs, gates, fences or wrought iron, boats and marine equipment, air conditioning and heating systems. CYNDAN INSTANT COLD GALVANISING provides excellent long term protection and is ideally suited to coat any metal parts which require galvanised protection or touch ups to damaged galvanised parts. n.b. One 400g can protects approximately one square metre.

**Directions:**

1. Ensure surface is free from dust, grease and oil. Sand or wire brush surface. Pre clean with Cyndan® Power Kleen. Do not apply rust converting paint to surface.
2. Hold can upright 20cm from surface, and apply in even bursts. A few light coats are better than one heavy coat, allow a few minutes between coats.
3. Dries to touch dry in 15 to 30 minutes.
4. No primer or other special surface preparation required.
5. After spraying, turn the can upside down and press nozzle to clear jet. If jet becomes blocked clean with fine wire. Clean up any other spray with Cyndan Dislodge.

**SAFETY & FIRST AID:**

**WARNING:** Intentional misuse by deliberately concentrating and inhaling contents can be harmful or fatal.

**CAUTION: HIGHLY FLAMMABLE**  
Contents under pressure. DO NOT spray near fire or open flame. DO NOT puncture or incinerate can. Avoid prolonged exposure to sunlight. DO NOT store at temperatures over 50°C. Use with adequate ventilation. Avoid prolonged breathing of vapour or repeated contact with skin.
