

Revive Timber Cleaner

- ✓ Breaks down and removes excess oils in timber
- ✓ Removes tree sap / sludge in equipment
- ✓ Removes gum from blades

REMOVAL OF TREE SAP/SLUDGE AND CLEANING OF TIMBER VEHICLES & EQUIPMENT

Cyndan Revive Timber Cleaner can be used to break down and remove excess oils in timber.

It is also used to clean vehicles, equipment and machinery in the timber & any other industries wherever tree sap and sludge need to be removed.

Revive Timber Cleaner is also used for the removal of gum from blades when working with timber.

After using Revive Timber Cleaner a final rinsing with water of the surface area treated is essential.

Once you clean timber and decking using Revive Timber Cleaner, we recommend a protective coating of **Cyndan Timber Protection Solution**.

Can be diluted at up to 10:1. Use stronger or weaker as required.

SIZE:

5L, 15L, 200L

USAGE INSTRUCTIONS:

- Apply using a clean rag or soft bristle brush to agitate.
- Allow a few minutes for Revive Timber Cleaner to penetrate before rinsing off with water.
