

Cynflo Liquid

Blocked drain clearing, rust and limescale remover

Heavy duty instant liquid drain opener cuts through grease, organic matter, hair, sanitary products. Fast-acting and effective. Use in drains, pipes, toilets, kitchens, bathrooms, waste-water environments. Ideal for serious blockages including dead tree roots. Removes laundry detergent, limescale, rust build-up. Safe for septic tanks. Once drains are unblocked, follow with enzyme-based maintenance products: Cyndazymes or Liquidzymes.

Directions for use:

Dilution:

No dilution is required.

Small drains: Remove floor waste, apply 250 ml, allow to stand for 5 minutes and then flush with cold water.

Large drains: Remove floor waste, apply 2 litres, allow to stand for 15 minutes and then flush with cold water for 15 minutes.

Toilets: Clear water from toilet bowl with a plunger, then apply 1 to 1.5 litres and flush with water.

Urinals: Pour 1 litre down the drain, allow to stand for 5 minutes then flush with water.

Grease traps: Apply 2 litres as needed.

Notes: Use only in well ventilated areas. We recommend that the liquid be applied by a licensed tradesperson. Avoid contact with stainless steel, aluminium, polished chrome and painted surfaces.
