

D'Solve

D-limonene-based solvent for removal of glue, grease and oil

Dissolves and removes most adhesives, grease, oil, brake fluid, road dirt, grime. Cleans brake assemblies and parts, and increases their efficiency by drying out linings, drums and pads. Reduces brake squeal and leaves no residue. May be used as a quick-break cleaner, with run-off into a holding pit where degreaser and waste will separate from grey water, to be safely disposed of later.

Directions for use:

Dilution:

Dilution is not required.

General cleaning:

1. Clean off any loose matter.
2. Apply with a brush or sprayer.
3. Agitate with a cloth or brush if necessary.
4. Allow to dwell for 5 to 10 minutes, but do not allow to dry.
5. Rinse the surface with water.
6. Repeat steps 4 to 5 if required.

Electrical equipment and machinery:

1. Isolate all electrical equipment or machinery before applying.
2. Apply with a brush or sprayer.
3. Allow to air dry and then wipe with a lint-free cloth, or brush clean.
4. Ensure equipment is dry before re-establishing electrical connection.
