

Odourless

Odour neutraliser for sewage and wastewater odour control

Odour-neutralising compound blends essential oils and perfume compounds derived from plants grown mostly in Australia. Only small amounts are required for immediate and long-term elimination of unacceptable odours. Should not be considered a masking agent.

Directions for use:

Dilution:

May be safely with or without dilution.

Indicative dilutions are:

Heavy odours: no dilution.

All purpose: 1 part to 9 parts water.

Wash or rinse water tanks: 1 part to 60 parts water.

1. Remove any solid or liquid waste from surfaces.
2. Apply by pressure sprayer or mop to the offending surface or spray sparingly into the air.
3. Allow to dry.
4. Reduce the dilution if odours persist.
