

# Rub Clean Gel With Grit

## Waterless industrial hand cleaning gel

Emulsifying agents dissolve the heaviest grease and grime while being gentle to the hands. No unpleasant solvent odour, lanolin boosted, contains four-micron beads to aid scouring. Hands may be rinsed off with water, or wiped clean with a dry rag.

## Directions for use:

### Dilution:

Dilution is not required.

1. Apply a small amount to hands.
2. Rub in well to release any soiling.
3. Remove dirt and grime with a cloth or rinse hands with water.
4. Repeat if required.
