

UBC

Heavy duty degreaser, metal polish, engine and chassis wash

Aggressive biodegradable water-based degreaser with sodium hydroxide, for heavy equipment and motor vehicles. Cleans, degreases and deoxidises metals, coated surfaces, stainless steel tanks, masonry, timber, building fixtures and machinery. Ideal for stripping away grey oxidised timber residue and sap. For use with commercial and industrial floor scrubbers on streetscapes and floors.

Directions for use:

Dilution:

Heavily soiled areas or parts: 1 part to 5 parts water.

General cleaning: 1 part to 20 parts water.

1. Remove any loose contamination. Use a pressure washer where applicable.
2. Apply with a brush or sprayer.
3. Allow to dwell for 5 to 10 minutes, but do not allow to dry.
4. Thoroughly rinse the area with water, preferably with a pressure washer.
5. Repeat steps 2 to 4 if required.

Note: Avoid contact with aluminium and take care near painted surfaces.
