# INSECTAGUARD (SOLVENT BASED)

CONTROLS FLIES, COCKROACHES, SILVERFISH, FLEAS,  
CARPET BEETLES, MOTHS, ANTS, WEEVILS AND SPIDERS

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL  
UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

## DIRECTIONS:

Situation	Pest	Rate	Critical Comments
Industrial, Commercial and Domestic premises	Flies, Cockroaches, Silverfish, Fleas, Carpet Beetles, Moths, Ants, Weevils and Spiders	25mUm2	Apply spray direct to surfaces with spray applicator. Spray inert surfaces such as timber, vinyl, laminex, masonry - i.e. walls, ceilings, foundations, pathways, etc. The residual effect will last for a period of three months then repeat treatment if insects are still alive. <b>READY TO USE SPRAY DO NOT DILUTE.</b>

This product is a residual, ready to use insecticide that kills insects on contact and by residual action. Apply to areas where pests are seen and to other areas which may provide harbours. After use, wash and rinse spray applicator thoroughly. Do not apply to clothing or fabrics.

### Insecticide Resistance Warning

For insecticide resistance management Insectaguard is a Group 3A insecticide. Some naturally-occurring insect biotypes resistant to Insectaguard and other Group 3A insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Insectaguard or other Group 3A insecticides are used repeatedly. The effectiveness of Insectaguard on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, Cyndan\* accepts no liability for any losses that may result from the failure of Insectaguard to control resistant insects.

Insectaguard may be subject to specific resistance management strategies. For further information contact your local supplier, Cyndan\* representative or local agricultural department agronomist.

**SAFETY:** Avoid contact with eyes.

APVMA Approval No: 39169

**FIRST AID:** If swallowed, do NOT induce vomiting, give a glass of water and seek medical attention. Contact the Poisons Information Centre (13 11 26 Australia; 0800 764 766 New Zealand). If in eyes, hold eyelids open and flush with water for at least 15 minutes.
